Horse Number and Name	Track	Race #	Suggested Bet type	Suggested Units	Why do we like it?	SST Confidence Rating
#1 The Mona Lisa	Randwick	3	WIN	1	Racing well this preparation, track and distance winner in this grade two starts back, last start caught wide the trip and still fought out the finish with Perfect Justice, big gap back to 3 rd , only up 1kg from the run, draws nicely in barrier 4 to get a softer run, stays at BM72 level. <i>Racing so well, good mile record and will get a softer run here.</i>	High
#4 Sequista	Randwick	4	EACH WAY	1 (0.5 EW)	Racing well, solid last start running behind a promising horse in Hello Captain, 1300m suits and looking for a firmer track which should get here given forecast, draws nicely in barrier 3 to get midfield run with cover, sectional times indicated better than BM72 grade at its best. <i>Talented horse looking for firmer track and can run well at BM72 level.</i>	Good
#8 Perfect Justice	Randwick	6	WIN	1	Racing well this preparation, scored a deserved win last start running down The Mona Lisa over the mile, sectionals show solid acceleration from 400-200m, up to the 1800m looks to suit, handy draw and will get a good run with cover midfield, drops 2.5kgs after the claim, BM78 grade some query however sectionals indicate has the talent to run well. <i>In form galloper than can run on hard here up in trip.</i>	High
#9 Sir Les	Randwick	7	EACH WAY	1 (0.5 EW)	1 st up of a 2 month freshen, poor run last start caught wide jumping from the outside barrier and faded late, trial prior super running along side Overpass, won its first two starts well, clearly has talent, not sure heavy 9 suited last start and will get a firmer track here. <i>Talented horse, finds a winnable race and willing to forgive last start.</i>	High
#5 Ice Kool	Randwick	9	WIN	1	3 rd up, looking for 3 wins in a row, track and distance winner, coming off a super trial win by over 8 lengths, last start showed super 800m sprint despite being wide without cover, should get a softer run here with a midfield draw, up in grade but sectionals produced show it has the ability. <i>Up and coming sprinter, racing well and is the obvious choice.</i>	Very High
#7 Bonfire Spark	Eagle Farm	3	EACH WAY	1 (0.5 EW)	Racing consistently this preparation, tough run last start caught 4 wide but still battled on well, same track and distance here, draws better this time in barrier 1 to get good run near the lead with the fence to follow, stays at BM70 level, carries same weight. <i>Draws better here to get a good run on the pace over 1000m.</i>	Good
#6 Automne Tree	Eagle Farm	6	WIN	1	4 th up, looking for 3 wins in a row, drops 2.5gs from its last start win at Doomben over the mile, sectionals over the 600m outstanding there, draws well in barrier 4 to get similar soft midfield run, stays at the mile. <i>Progressive type with good statistics over the mile and will hit the line hard.</i>	Good
